B.Eng. (Infrastructure and Project Management) (Hons) curriculum for <u>AY2024/25</u>:

Table 1: Programme Structure

No	Requirements	Units
		(UTs)
1	Common Curriculum	60
a	 <u>General Education Pillars</u> (University-wide), 4 UTs each 1. Data Literacy (GEA1000 Quantitative Reasoning with Data) 2. Digital Literacy (CS1010E Programming Methodology) 3. Critique and Expressions (ES2631 Critique and Communication of Thinking and Design) 4. Cultures and Connection * 5. Singapore Studies * 6. Communities and Engagement * *Students to select from the following list of available courses for GE Pillars with no pre-assigned course: - https://www.nus.edu.sg/registrar/academic-information-policies/undergraduate-students/general-education/list-of-courses-approved-under-the-ge-pillars 	24
b	 <u>Common Curriculum Pillars (CDE), 4 UTs each</u> 1. Project Management (PF1101 Fundamentals of Project Management/ PF1101A Project Management and Finance) 2. Artificial Intelligence (EE2211 Introduction to Machine Learning) 3. Creating Narratives (CDE2000 Creating Narratives) 4. Design Thinking (DTK1234 Design Thinking) 5. Maker Space (EG1311 Design and Make) 6. Sustainable Futures (CDE2501 Liveable Cities) 7. Systems Thinking (IE2141 Systems Thinking and Dynamics) Refer to the in-flight change summary (next page) for highlighted items. 	8
L	1. IPM4101 Dissertation *Year-long course	0
2	Primary Major	60
a	Discipline Core (IPM Essentials) Year 1 1. IPM1102 Infrastructure and Project Management Law (4 UTs) 2. IPM1103I Digitalisation in the Built Environment (4 UTs) 3. IPM1104 Built Environment Engineering Principles and Practice (4 UTs) Year 2 1. IPM2101 Introduction to Building Performance (4 UTs) 2. IPM2102 Construction Technology (4 UTs) 3. IPM2103 Measurement (Building Works) (4 UTs) 4. IPM2104 Project Cost Management (4 UTs) Year 3 1. IPM3102 Infrastructure and Facilities Management (4 UTs) Year 4 1. IPM4102 Project Execution (4 UTs) 2. IPM4103 Contract and Procurement Management (4 UTs)	40
b	Engineering Core (CDE) 1. CE2407A Uncertainty Analysis for Engineers (2 UTs)	20

	Total	160
3	Unrestricted Electives	40
	d. ETP3205 Innovation & Enterprise Internship (6 UTs) + EG3612 Vacation Industrial Attachment (6 UTs)	
	c. EG3612 Vacation Industrial Attachment (6 UTs) + CFG2101 NUS Vacation Internship Programme (4 UTs)	
	b. EG3612 Vacation Industrial Attachment (6 UTs) + CDE2605R Undergraduate Research Experience (4 UTs)	
	a. EG3612 Vacation Industrial Attachment (6 UTs) + EG2605 Undergraduate Research Opportunities Programme (4 UTs)	
	* Alternatives for Industrial Attachment:	
	6. EG3611A Industrial Attachment (10 UTs) *	
	5. EG2401A Engineering Professionalism (2 UTs)	
	4. MA1513 Linear Algebra with Differential Equations (2 UTs)	
	3. MA1511 Engineering Calculus (2 UTs)	
	CE2407B Introduction to Numerical Methods for Engineers (2 UTs)	
	1. CE2407A Uncertainty Analysis for Engineers (2 01s)	

• Some specific courses indicated might differ for students in Residential Colleges (RC).

In-flight Curriculum changes (As of June 2025)

The minimum number of additional technical courses you are required to read is based on your year of matriculation and your Normal Programme Duration (NPD). The table below shows the minimum number of additional technical courses required for each group of students.

Year of Matriculation	Normal Programme Duration: 4 years	Normal Programme Duration: 3 years
AY2024/25	3 additional TCs	2 additional TCs

*TC: Technical Courses

DBE List of Technical Courses

Course Code	Course Title	Semester offered	Previous Code
IPM2105	Structural Systems	Sem 1	PF2102
IPM2106	Mechanical and Electrical Systems	Sem 2	PF2505
IPM3103	Project Finance	Sem 1	PF2205

In line with the updated curriculum, the TCs will be used to fill following space in the Common Curriculum:-

- **Systems Thinking:** If you have not already read IE2141 Systems Thinking you can read an additional technical course to satisfy the Systems Thinking pillar in lieu of IE2141
- **Creating Narratives:** If you have not already read CDE2000 Creating Narratives you can read an additional technical course to satisfy the Creating Narratives pillar in lieu of CDE2000
- Sustainable Futures: If you have not read a course in the Singapore Studies pillar you can use CDE2501 Liveable Cities to satisfy Singapore Studies and read an additional technical course to satisfy the Sustainable Futures pillar

Students who have read the TC in the previous codes would also be counted towards this requirement. *Example:*

Intake 2024 student with NPD of 4 years has read PF2205 prior to this announcement is considered to have completed 1 additional TC.

Students who are uncertain can reach out to the department at <u>ipm@nus.edu.sg</u> to seek guidance. Please also include your latest study plan using the department's template.
