Public Lecture Series at World Scientific

7th Public Lecture by Professor Li Haizhou

Embracing Artificial Intelligence

Date: 24th June, 2019

Time: 10:30 am - 12:00 pm

Venue: 5 Toh Tuck Link, S596224

World Scientific Publishing

FREE ADMISSION

For Registration, email Nargiza Amirova: anargiza@wspc.com

Artificial Intelligence is transforming our lives and the way we work. It also provides tremendous opportunities for business to upgrade their products and services. In this talk, we will introduce artificial intelligence by using examples that we are familiar with, and review its past, present and future. The rise of artificial intelligence

will lead to the fourth industrial revolution. We will also discuss how to leverage the opportunity that artificial intelligence brings us, and how to embrace the impact of industrial revolution.

Professor Li Haizhou

Haizhou Li received his Ph.D degree from South China University of Technology, Guangzhou, China in 1990. He is currently Professor at the Department of Electrical and Computer Engineering, National University of Singapore. His research interests include speech information processing, natural language processing, neuromorphic computing and other topics in artificial intelligence.

Professor Li has served as the Editor-in-Chief of IEEE/ACM Transactions on Audio, Speech and Language Processing (2015-2018), the President of the International Speech Communication Association (ISCA, 2015-2017), and the President of Asia Pacific Signal and Information Processing Association (APSIPA, 2015-2016). He is a Fellow of the IEEE and the ISCA. He was named Nokia Professor in 2009 by Nokia Foundation, and Bremen Excellence Chair Professor in 2019 by University of Bremen.
