

**NUSS Medal for Outstanding Achievement
Established Ay2009/2010**

2010 - Kevin Pye Phyto (2006/2007)

Kevin Nay Yaung was the winner of the award. His CCAs have landed him many enriching experiences. He has always been active in campus activities, and in community work. He was a founder of the Education Movement, a community project in collaboration with Citibank. He founded the Triple Helix undergraduate science journal in NUS and was at its helm for three years. He wrote and edited numerous articles on science policy for the journal and presented a paper at the Triple Helix annual conference in San Diego. He has also taken the journal as an opportunity to create a more active forum for undergraduates from various top universities around the world to discuss science policy issues and to popularize science.

2012 - Wong Tse Jian (2008/2009),

Wong Tse Jian, who spends most of his Fridays working with “Yishun Reading Stars” to help children with disabilities to interact with society, and to pick up some other useful skills.

2016 - Gwee Chia Hong (Cohort 2012/2013) Nominated

Chia Hong is one of the most impressive ESP students since the ESP programme was launched in 2006. He is a tireless leader who has demonstrated an unwavering dedication to serving the community despite his heavy academic workload.

2018 - Lou Beicheng (Cohort 2015/2016)

Beicheng’s outstanding level of high academic achievement speaks for itself as he was able to take the Global Engineering Programme, Engineering Science Programme, double-major in physics and a Minor in computer science simultaneously and maintain a near perfect CAP which is truly remarkable.
